Gitex Technology Week - Hall 4 Stand 410

Compuprint is an Italian well-known manufacturer of transactional printers, scanner, high-end serial dot matrix printers and thermal printers since almost 40 years. It is located near Turin. Compuprint belongs to GDS Group (Italy) develops and distributes solutions for banking houses, commerce, industry and the health sector. Innovative solutions places Compuprint at higher level on the market with products extremely fast, reliable and with low costs of ownership.

COMPUPRINT srl, the GDS Group Company active in Information Technology sector, confirms and reinforce its presence in the printing applications market with the product's lines on Serial Dot Matrix, Transactional /Multifunction and Thermal labelling that will be showed at the Gitex Technology Week – October 16-20, 2016.

We are proud to present at GITEX the new product on our offer - Middle East Premiere - : The Self Service Passbook Printer Banking Kiosk . An innovative platform that we can provide to our customers with a quick and easy self service experience for print requirements , passbook update and check deposit.

We are glad too, to present the Transactional Scanning Printer **TSP40plus** which will represent a unique combination “All in one” between check reader, A4 scanner, passbook printer with an Automatic Document Feeder.

We are also proud to announce that in the fully renovated offer of **6000 series Thermal printers**, dedicated to labeling and barcode applications in logistic, manufacturing healthcare and distribution, now are included the new 2 (6110) and 3 inch (6210). portables printers Compuprint that provide as standard features Bluetooth and USB connectivity. Compuprint 6214, 6414 Plus and 6416 completes the Compuprint offer of thermal printers.

Compuprint will also offer other "best in the market" printing solutions: the historical **Serial Dot Matrix 9000 and 4247 families**, the highest product's performance in term of speed, productivity and connectivity today present on the market.

To complete the choice and satisfy the Industrial printing applications Compuprint can offer the higher featured Compuprint **10000 Serial Dot Matrix** with the highest speed available in the market with metal case for heavy environments.

We will glad and wait to have you in our booth to show our products and demonstrate the continue efforts of Compuprint in developing new solutions for your printing requirements.
